WHAT SET'S OUR TEAM APART!

COMMITMENT

Our experienced staff are committed and here to stay. It's what underpins our success. We're proud of our high staff retention. Consistency of service makes a tangible difference to our customers' businesses. We are committed to long term partnerships and our team will keep you coming back.

EXECUTION

We are detail driven! From your first contact to your delivery our staff are committed to perfection. Period! We only get one shot to make a good first impression and we want to keep you coming back. Our common goal is to exceed expectations!

EXPERIENCE

Our highly trained staff have been in the electrical industry for many years and have extensive experience in switchboard manufacturing. Straight-talking and hardworking, our team will guide you through every step of the switchboard manufacturing process.

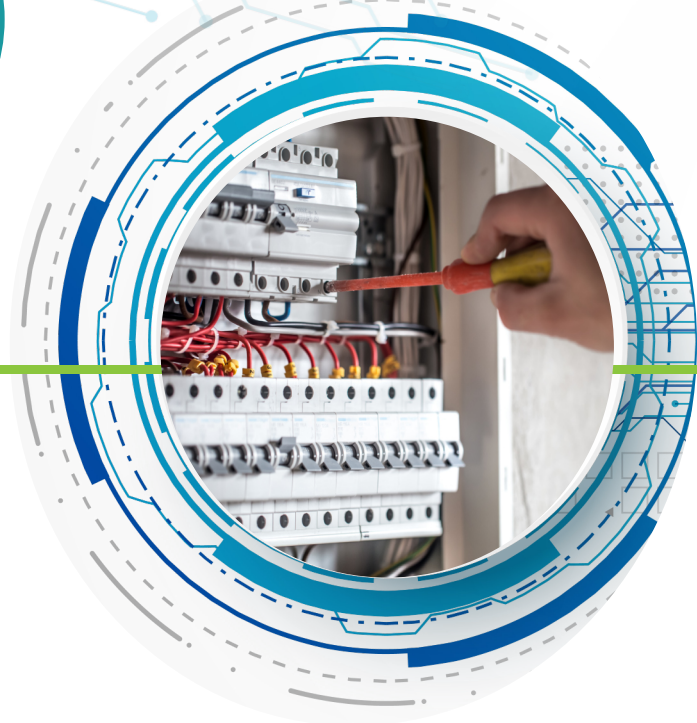

QUALITY

Our team works hard to design and manufacture the best switchboards boards for your project. We don't sit still! We're always learning, improving, and finding better ways of doing business. We focus on creating quality products built to last.

OUR MISSION

Our mission is simple, yet the foundation of everything we do here at Design Switchboards and Distribution, provide high-quality products and the highest standard of support to our clients.

We strive to service our customer with the utmost integrity and satisfaction. Experience the genuine value and partner with us today.

OUR CAPABILITY

Design Switchboards and Distribution are a “one stop shop” for your switchboard needs in Australia. Our reputation with our clients is built on flexibility and working together to get the job done. We have the solution for your next project.

Manufacturing

From our comprehensively equipped and locally staffed workshop based on the Gold Coast, Queensland, we build quality and reliable products. With Australia wide distribution network, we can support your next big project.

Design

Our highly experienced team can design simple distribution boards to the more complex main switchboards. Utilising the latest design software, work with our client from start to finish, ensuring the product meets the customers present and future needs.

OUR PROJECTS

Design Switchboards and Distribution has built a reputation for quality and reliability. We are experts in our field, and we can design and manufacture of LV power distribution electrical switchboards for your next project.
