

RISER METERING PANELS

The custom meter panel that's perfect for a range of applications. Suitable for a supply authority and embeded network metering applications.

This innovative solution is suitable for multi-tenancy installations up to 80A per tentant and it comes with removable lift off escutcheon. Depending on the site, it can be wall mounted or floor mounted using a channel plinth.

All our custom meter panels are designed in compliance with AS/NZS3000, AS/NZS 61439, AS/NZS 3439.1 and follow all relevant service installation rules per state.

Riser Metering Panels are available in 3 sizes to suit your project.
