

TAKE OFF BOXES

Riser Cable Take Off Boxes suitable for connection of rising mains cables to metering panels. Also commonly known as Tee Off Box

Featuring removable covers for greater accessibility, the Tee-Off enclosure is suitable for multi-story buildings. Providing an easy fused tee-off point for bigger cables where required, the Tee-Off enclosures are capable of housing current limiting fuse from 63A to 250A.

Also commonly known as Tee Off Box. Suitable with MCB & MCCB protection. We use only the best brand of circuit breakers to discriminate with upstream protection devices.

Seriously Feature Packed!

- 1.5mm Zinc annealed steel
- Powder coated for a durable finish (RAL 7032/Grey) or (RAL2000/Electric Orange)
- 160A/250A in stock
- Split gland plates top and bottom
- Lift off plate for easy connection

Product Range & Guide

Part No - TB-160
800A Rating
Din disconnect
Fuses 63-160A

Ingress Protection: IP40

Part No - TB-250
800A Rating
Din disconnect
Fuses 100-250A

Ingress Protection: IP40
